## 7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The college is running a short duration certificate course. The course was started with the financial assistance of the UGC since 2013. Now the college is running this course only on self finance based to train the students in all aspects of the apiculture. The admitted students mostly came from the rural and tribal background. Many of them are the first generation learners who need guidance, training and expertise in starting their agri-based business for employment. The students from agriculture background have an added advantage for their family profession and geographical situation. As most of the students came from the neighbourhood at the foothills of the Satpuda mountain ranges. This value added course has been proving very useful for earning their livelihood through self-employment and various NGO's.

The certificate course has been imparting both theoretical knowledge and practical training in the science of apiculture and its economic aspects including breeding, rearing of bees, climate condition and the risks and challenges in the bee keeping. The students are acquiring value added certificate to enhance their employment prospects. These students are equipped with the technical know how about the apiculture.

The constitution of the college Trust has a provision of sending teachers representative on the management. The concerns of the employees are represented through them. The teachers have their say in the management and can participate in the decision making process of the institution.

Secondly the college development committee, IQAC and various committees for the regular curricular, co- curricular and extracurricular activities also participate in the decision making process of the college. The Principal of the college, being an ex-officio secretary of the management bridges the communication among all the stakeholders. The stakeholders of the college are heard with sensitivity.

## 7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The college is running a short duration certificate course. The course was started with the financial assistance of the UGC since 2013. Now the college is running this course only on self finance based to train the students in all aspects of the apiculture. The admitted students mostly came from the rural and tribal background. Many of them are the first generation learners who need guidance, training and expertise in starting their agri-based business for employment. The students from agriculture background have an added advantage for their family profession and geographical situation. As most of the students came from the neighbourhood at the foothills of the Satpuda mountain ranges. This value added course has been proving very useful for earning their livelihood through self-employment and various NGO's.

The certificate course has been imparting both theoretical knowledge and practical training in the science of apiculture and its economic aspects including breeding, rearing of bees, climate condition and the risks and challenges in the bee keeping. The students are acquiring value added certificate to enhance their employment prospects. These students are equipped with the technical know how about the apiculture.
